PROFILE

Full Stack Web Developer with 3 months of internship experience in developing and maintaining responsive web applications. Skilled in front-end technologies including HTML, CSS, JavaScript, and Bootstrap, with hands-on exposure to back-end development using PHP and Django.

Passionate about clean coding, problem-solving, and building user-friendly applications. Currently learning and expanding expertise in Spring Boot to strengthen back-end development skills and seeking an opportunity to contribute technical knowledge and grow with a dynamic organization.

AMAN PANT

Full Stack Developer

WORK EXPERIENCE

Arc Solutions [Full Stack Web Developer]
14/May/2025 – 13/Aug/2025 (3 Months)
- Developed and maintained responsive web pages using **HTML, CSS, JavaScript, and Bootstrap**.
- Assisted in back-end development with **PHP and Django**, including creating and testing APIs.
- Worked on database integration and basic CRUD operations.
- Gained practical experience in version control (**Git/GitHub**) and teamwork in an agile environment.

SKILLS

Technical Skills
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap
- **Backend:** PHP (basic), Django (basic), Spring Boot (learning)
- **Databases:** MySQL
- **Version Control:** Git, GitHub

PROJECTS

1. Job Portal Website (Internship Project)
- Contributed to the development of a Job & Career Portal featuring job search, application management, and user profile sections.
- Worked specifically on the Resume Maker module, enabling users to create and save resumes online.
- Implemented responsive front-end using HTML, CSS, JavaScript, Bootstrap.
- Assisted in backend development with PHP & MySQL, fixing issues related to data fetching and database integration.

2. E-Vehicles Website Template
- Created a responsive template for showcasing electric vehicles.
- Implemented clean UI/UX design with **HTML, CSS, JavaScript, Bootstrap**.

3. Other Projects:
- Online Portfolio Website
- Water Purifier Website
- College Website
- Security Camera Seller Website
